

Monday 15th July to 19th July

Haute Vallée Activities Week

2019

Important information:

- Return your Activity Form, Parent Consent Form and deposit by **Monday 29th November 2018** to the Mrs D'Ulivo-Rogers office.
- Once your activities have been confirmed you can make payment by cash or cheque (use the slips provided and hand these to Mrs D'Ulivo- Rogers)
- A minimum of £50 non-refundable deposit for all activities will be required immediately to secure places (this will differ for the Ireland trip)
- 50% of the amount owed for off island activities by **Thursday 31 January 2019**
- Payment in full for on island activities by **Thursday 31 January**
- Please note that at the time of printing, costs are best calculation and may vary slightly as we near the end of the summer term.

Learning outside of the classroom

Dear Parents/Carers

I am delighted to announce that Activities week will be running again for students in Years 7 to 9 in the week of Monday 15th July to Friday 19th July. The week is part of the school's enrichment curriculum and has been put together to allow all students the opportunity to try something new and to take the plunge into developing a skill or hobby that might stay with them for the rest of their lives. It will encourage them to work with other students from different houses & year groups.

Please note that all students must attend school during Activities Week; it is NOT optional. It is part of the school term and so normal attendance must be maintained.

As you can appreciate, arranging a broad range of activities is not easy. It is therefore important that second choice activities are selected in case activities are either overbooked or do not have the sufficient numbers to allow them to go ahead. Please make them different to the first choices. Please note that we cannot guarantee that the first choice made by your child will be possible, though their chances are far better if they meet they are returned before the deadline. All activities on offer depend on attracting a viable number of students, should an activity not attract sufficient numbers it will be withdrawn or the price per student my increase. Any student who does not hand in a choice form will be expected to attend school, in full school uniform, following a full timetable.

Activities vary in cost and this should be taken into consideration when discussing a choice of activity with your child.

As you would expect, students will be required to adhere to the expected standard at all times during the activity week and historically, we have been immensely proud of how our students have represented themselves and our school. However should students fail to maintain the expected standards of behaviour during the academic year they may be withdrawn from the chosen activities. In this event we will be unable to return deposits and any monies paid.

The individual activity leader will notify you in writing, to inform you if your child has gained a place on the activity of their choice. Deposits will be collected and bookings confirmed. I hope this brochure will help you and give you the opportunity to discuss the week with your child.

If you have any further queries relating to booking activities please, in the first instance ask your child to speak to their tutor, if this does not resolve the situation, please contact the Activities Coordinator Mrs Riley on 736524 or email c.riley@hv.sch.je

In the process of organising the activities in this booklet, staff have paid great attention to health and safety. Where activities take place in potentially hazardous situation, tuition and supervision by trained and qualified instructors is provided. To this end it is important that the Parental Consent Form is completed and returned to the school office by Friday 29th November.

Kind regards

Mrs C Riley
Activities Co-ordinator

What and Why 5 Skills?

The activities in this booklet will provide students with the chance to develop a particular skill or interest over the whole week. All of the activities have been carefully selected to provide safe and secure but challenging educational experiences that encompass each of the 5 skills. We believe that high quality educational experiences outside the classroom can stimulate, inspire and motivate students.

1. Communication

Young people need to be given the opportunity to extend their communication skills beyond the classroom audience, so that when they enter the workplace they can communicate confidently and coherently in a variety of different situations with colleagues at all levels.

2. Teamwork

Enabling young people to develop team working skills shows them what can be achieved when people work together. It also teaches them patience and tolerance - both important skills in the workplace.

3. Problem-solving

Young people need to be given the opportunity to problem-solve in real-life situations, so that they have the opportunity to fail without criticism, learn from that experience and try again.

4. Creativity

Creativity can be applied in all areas of work and life, whether that is using creativity to solve a problem, design new processes or develop new ideas. Young people need to be given the opportunity to test their creative ideas in a range of different ways through 'learning by doing'.

5. Resilience

Young people need to experience failure as part of their learning, so that rather than give up when things do not go to plan, they can then apply that learning in new situations. Through learning about resilience, young people can also develop humility, 'grit', self-management and tenacity - all important skills in work and life.

6 Areas of Challenge

Each activity is planned not only to include the 5 skills but to incorporate a key area of challenge. Each activity is highlighted to demonstrate which area of challenge the activity focuses on.

Being Active	Being active through regular physical activity is one of the most important things you can do for your health. It can help control your weight, reduce your risk of illness and disease, strengthen your bones and muscles, improve your mental health and mood, and improve your ability to do daily activities.
Being Creative	Your creativity is what makes your life fun and is what gets you excited each and every day you wake up in the morning. Being creative is when you allow yourself to be your true self. If you have fun doing it and it keeps you constantly thinking and trying to figure out a new and better way, then that is what you need to focus on in life because creativity is what pushes passion.
Volunteering & Work Experience	Prospective employers are going to be looking very closely at your CV to see why they should employ you and not someone else. Anything you can include in your CV that can give you an edge is essential. Work experience is one such factor. Volunteering is another. It is a pretty common mistake to think of volunteering as just something nice that people can do for others in need; volunteers have an enormous impact on the health and well-being of communities.
Adventure Skills	Many people believe we are producing a generation of 'cotton wool kids', who are missing out on experiences that help to raise their self-esteem, give them confidence and increase motivation. Learning to cope with risk and challenge requires you to make informed choices and to understand and take responsibility for the consequences. It leads to a positive 'can-do' attitude.
Brain Training	Your brain is where mind and body come together. Just as you can train your body to build stamina, strength or flexibility, so you can train your brain. Brain Training can help you strengthen attention, focus, learning, memory, creativity and intuition; it can help you gain greater control of behaviour and emotions and improve your ability to stay in 'the zone' and perform at your peak.
Just for Fun	It's perfectly fine to pursue fun - just don't confuse its pursuit with the nobler pursuit of happiness! Whereas fun and excitement are fleeting things, happiness endures long after the thrill of the game is over. Fun defines the moment, happiness defines the person.

Off Island to Ireland

Are you looking for fun, crazy adrenaline fuelled activities?

Are you ready to get dirty and muddy?

Are you a team player and problem solver?

Do you like crisps?

Then this is for you!

Activities include:

Must be confident swimming in the sea

Transport will be provided for 4 days, 5th day meet in St Helier.

Maximum number of students: 12

Trip Leader: Miss Harvey

Frequently asked questions

Q. What if I can't afford an off-island trip this year?

A. We aim to have at least two off Island trips running each year which means that parents and students can stagger the cost.

Q. What happens if costs of the chosen activity rise?

A. Unfortunately all of the activities are based on the maximum number of students this enables costs to be kept low however if the activity fails to gain enough numbers either a decision will be made not to run the activity or the students will be informed of increased cost.

Q. What if I pay and my child is ill?

A. Parents are advised to check their household travel and personal insurance. Refunds are unlikely as all activities are paid for in advance and prices are set dependent on numbers.

Q. Is this another expense for me?

A. The activities range in value and the on-island (off-site) and in-school experiences are just as rewarding and less costly, some are even free!

Q. Will I have more details concerning the off-island trips?

A. Information Evenings are organised a few weeks before each activity in order to give parents an insight into the logistics of the trip e.g what to bring, timings and the agenda.

Q. What if I pay my deposit and then change my mind?

A. Regretfully, as we will already have incurred expenses, no refunds are possible.

Q. What if I pay and my child misbehaves?

A. Regrettably, as we will have incurred expenses, if your child causes us serious concerns and their behaviour does not improve, you will lose your deposit and any money paid and your child will remain at school during this week.

Q. Can I pay in instalments?

A. Yes, for the more expensive activities it is possible to pay in instalments. The activity leaders will write to you in early December confirming a place on an activity and also outlining the payment procedure. Cheques to be made payable to: Haute Vallee School Fund. Please also write the student's name, form and activity on the back.

Q. When can I pay in money?

A. All payments are to be made to Mrs D'Ulivo Rogers who is situated in the finance office opposite the PE office before school, during breaks and after school.

Activities Week Choice Form and Parental Consent

Please return this form along with your deposit to Mrs D'Ulivo Rogers.

Remember: No deposit no allocation

Note: We cannot guarantee places if forms are returned after this date
